

Join a three-week training in May or June, 2017, to help you jump-start or complete the Academy of Peer Services Certification. Courses cover all relevant materials and offer a supportive, interactive classroom environment to facilitate your certification process!

Free Peer Specialist Training

Prepare for State Certification

Community Access is excited to announce [ThriveAtWork](#), a free training program that will support hundreds of peers (people who have used mental health services) to leverage their lived experience into a meaningful career helping others. Modeled after our nationally-recognized [Howie the Harp](#) peer training program, ThriveAtWork will offer new training sessions that support peer certification and career development.

We welcome participants with a broad range of personal and professional backgrounds. Training schedules are free and include evening options.

ThriveAtWork offers training for New Yorkers who have:

- Used mental health services or supports and are interested in a meaningful career using their experiences to help others, and/or
- A high school diploma or equivalent and residency in NYC

Learn more, download an application, or find dates for upcoming information sessions:
