Training Description

Recovery coaching as a peer-to-peer recovery support service has grown exponentially over the past 5 years. More than 2,000 coaches have been trained using the CCAR Recovery Coach Academy Curriculum. In addition, state certification, as a coach also requires training in ethics yet available training on this subject has been lacking. This 2.5-day training addresses this critical need. Many areas will be addressed that include defining peer coaching services roles and functions, coaching standards, issues of vulnerability, ethical decision making, performance enhancement, and legal issues.

Learning Objectives:

Participants will:

- Understand what ethics are, and why ethics are so important when performing peer Recovery Coach (RC) services
- Learn how to stay in your lane as an RC
- Understand the decision making process
- Develop guidelines for making ethical decisions
- Apply new learning to everyday work as an RC

Seating is limited to 15 so register soon.
