Who Should Attend: People 21 years old and up with mental health and/or substance use related challenges, family members and Care Managers

Learn How You Can:

- Get a new group of home and community-based peer and family support, work, school and transportation services that are now available to you!
- Make a new plan of care that takes a fresh look at your health, work, social and other personal goals!
- Meet with a care manager who can help your providers work more closely together with you to help you achieve your personal goals!

**You may be eligible for these services if you have made extensive use of Medicaid funded mental health and substance use related services over the past few years.*
