Partners in Care**

**Are you interested in helping your organization
become more family driven regarding policies and
practices to improve the involvement,
engagement, and improved outcomes of families?**

***If so, please consider joining our upcoming
Informational Webinar to learn more about our
initiative:***

**Family Driven Care Learning Community
(FDC-LC): Partners in Care**

Friday, February 28th

12-1 PM

[Click to Register for the FDC-LC Informational Webinar!](#)

Family Driven Care (FDC) is a framework that assists with the understanding that families are the main decision-makers within their lives and thus the care in which they participate and receive. Parents and caregivers are the experts on their children and their continual family involvement contributes to the quality care they receive.

To learn about this initiative, we invite you to attend the Family Driven Care Learning Community Informational Webinar. This presentation will introduce the Learning Community (LC) which will enable providers to adapt a framework that assists with the implementation and applications of the principles and practices of FDC. We will review this framework and introduce the components and expectations of the learning community, including the FDC tools and our Organizational Self-Assessment (OSA). We will also share the application process to participate, which involves the selection of a Core Implementation Team (CIT) for each participating program or organization.

This free 6-month long Learning Community is focused on building family driven policies and practices in care. It will consist of assessment tools, resources, and guidance utilized by behavioral health organizations and the families they serve to promote the use of family-driven policies and practices.

If you are interested, please join our informational webinar to learn more. And, if you already know you want to participate in our FDC-LC,

please complete our online application. Please note that only **one** application should be completed per agency. We recommend that your agency identify approximately 3 people to form a workgroup, which will be called your 'Core Implementation Team' (CIT). Your CIT will participate in a variety of activities with us from from February 2020- June 2020 (see timeline below).

All applications are due by end of day Monday, March 9th, 2020.
