During COVID-19, the lived experience and unique skill sets of peer support workers have been critical in supporting outreach and recovery to the most vulnerable. Join us for our second Office Hour session focused on peer support workers, Leveraging Peer Support Skills in COVID-19.

Continuing the conversation from our previous peer support session, we hope you can join us to share how you're engaging and supporting individuals and how we can support and advocate for you and your peer support team to safely engage in the COVID-19 response.

Panelists: Tom Hill and Joan King, National Council; Harvey Rosenthal, New York Association of Psychiatric Rehabilitation Services
