NEWSFLASH

Supporting Reentry for People with Mental and Substance Use Disorders: Establishing Recovery Housing

July 30, 2020, 12:30 p.m.–2:00 p.m. ET

Housing for individuals with mental and substance use disorders reentering the community after incarceration remains a critical need in many jurisdictions. Reentering individuals often need recovery housing programs to support their treatment and healing and reduce the likelihood of further criminal justice involvement.

This webinar presents strategies and approaches to establishing recovery housing. Information on what recovery housing is, how to start a recovery housing program, and relevant policies and resources from the U.S. Department of Housing and Urban Development will be shared. This webinar will be based on the key elements of recovery housing using SAMHSA's *Recovery Housing: Best Practices and Suggested Guidelines*. Representatives from two community-based/county programs will share their approaches to successful program development, funding, and implementation.
