Two Important Surveys!

Do you offer or have you participated in training based on the Academy of Peer Services courses? (Live or via video conference)

Please take a few moments to help us identify training programs for peer support specialists. The survey should take approximately 10 minutes to complete.

This survey was developed to identify in-person and virtual study groups offered to learners working on Academy of Peer Services (APS) coursework. The purpose of gathering this information is to help people access learning communities to

successfully complete APS course work and post-tests required for New York Peer Support Specialist Certification. Thank you for your valuable contribution to this effort!

Digital Peer Support Research

Dartmouth College is initiating a national survey of Peer Support Specialists to help us understand the organizational structure of peer support services. If you have 15 minutes, can you please complete this online survey?

Feel free to send along to other colleges that are Peer Support Specialists:
