

Screening Day during Recovery Month

We are excited to offer a number of activities and resources during this September's Recovery Month starting with resources for New York State's **Screening Day scheduled for September 22, 2020**. You can host a Screening Day at your agency or practice too! It is easy and we'll give you the tools necessary, including resources for someone with a positive screen.

We'd encourage any professionals who see clients to participate in Screening Day. This will help identify individuals who may be struggling with a gambling problem so they can be connected to support services.

Since problem gambling is considered to be the "hidden addiction," it is so important to screen people whenever possible. The warning signs aren't always visible, so doing a brief problem gambling screen can help determine if individuals need further assessment and care.

Register with us using the link below, and we'll make sure you have all the resources you'll need to hold your own Screening Day, week, or month!

Providers looking to participate can go online to <https://nyproblemgambling.org/resources/recovery-month/> to access the materials, as well as fill out a brief registration form.
